

**MOPM**  
MEXICAN OPTICS AND  
PHOTONICS MEETING  
September 9 -11, 2015  
Leon, Guanajuato Mexico

## **Optics at the University of the Alabama in Huntsville (UAH)**

Patrick Reardon

Center for Applied Optics, The University of Alabama in Huntsville

### **ABSTRACT**

Optics at UAH covers many fields of research and engineering, and is spread across numerous Academic departments and Research Centers. This presentation paints a broad picture of Optics at UAH over the past 30 years, focusing on some of the important activities of the past, but focusing more on the recent activities and facilities now in operation, and where UAH optics is going. This will include discussions of instrument development, optical testing programs and fabrication efforts, to name a few.
